Traditionally Under-Served Limited English Proficiency Indian Tribal Governments

#### Public Participation Goals, Strategies, Measurements, and Success

Goal 1: Informing the Public Goal 2: Involving the Public Goal 3: Including the Public Goal 4: Improving the Public Participation Process

Appendix A: Relevant State Statutes and Federal RegulationsAppendix B: Acronyms and AbbreviationsAppendix C: HRTPO Response to Agency and Public Comments

The preparation of this report has been financed in part through grant(s) from the Federal Highway Administration and Federal Transit Administration, US Department of Transportation, under the State Planning and Research Program, Section 505 [or Metropolitan Planning Program, Section 104(f)] of Title 23, US Code in cooperation with the Florida Department of Transportation, the urbanized area of Highlands County including the cities of Sebring and Avon Park; and the counties of DeSoto, Glades, Hardee, Hendry, Highlands and Okeechobee. The contents of this report do not necessarily reflect the official views or policies of the US Department of Transportation.

This plan may be revised without formal TPO action or public comment period to update information such as contact information, addresses or locations, and scribal errors.

The Heartland Regional Transportation Planning Organization is the primary agency responsible for transportation planning in DeSoto, Glades, Hardee, Hendry, Highlands and Okeechobee counties.

Transportation planning organizations were created by law to review and administer all policies and procedures applicable for state and federal transportation funding. The Heartland Regional Transportation Planning Organization (HRTPO) was established to provide transportation planning services for the six counties of the Heartland region including the urbanized area of Sebring-Avon Park.

The responsibility of the HRTPO is to manage a continuing, cooperative, and comprehensive planning process that results in the development of transportation plans and programs. The HRTPO provides a forum for cooperative decision making by officials of the affected governmental entities with input from citizens and constituency groups.

Public participation is a key component of transportation planning and one of the core functions of the HRTPO. Meaningful and effective public involvement brings a diverse set of views into the discussion and improves decision making by generating ideas for how the transportation system may be improved.

The Public Participation Plan (PPP) provides guidelines used by the HRTPO to inform and gather input from residents, communities, and interest groups throughout the six counties in order to expand the information available for planning.

### **HRTPO Full and Fair Participation**

Public participation is solicited without regard to race, color, national origin, sex, age, disability, religion or family status. Persons requiring accommodation under the Americans with Disabilities Act (ADA) or language translation, free of charge should contact Marybeth Soderstrom, HRTPO Title VI Liaison, 863-534-7130 (voice), or via Florida Relay Service 711, or by emailing msoderstrom@cfrpc.org at least three days prior to the event. The HRTPO strives to ensure full and fair participation by all potentially affected individuals, groups and communities in the transportation decision-making process.

# **Our Commitment to You**

- Early and continuous public involvement
- Inclusionary practices in activities and notification
- Consideration of the needs of the traditionally under-served
- Collaboration with other agencies, local governments, private sector transportation entities, and non-TPO officials
- Convenient meeting times and locations
- Reasonable access to information
- Timely notice of public involvement activities, including appropriate review and comment periods
- Acknowledgment and consideration of public comments

# **Background and Purpose**

#### What is a Transportation Planning Organization?

A Transportation Planning Organization, or TPO, is the organization designated by law with the responsibility for developing transportation plans and programs for urbanized areas of 50,000 or more in population. TPOs are established by agreement of the Governor and units of local government which together represent 75 percent of the affected population of an urbanized area.

The HRTPO coordinates transportation plans for the Heartland region including:

# What if I want to participate?

Public participation is an important part of the transportation planning process. Turn to the chart on page three to see all the ways you can get involved. The rest of this document provides details about the plan for public participation to be followed by the Heartland **Regional Transportation Planning** Organization (HRTPO). If you have questions or comments about the HRTPO Public Participation Plan, please visit our website at www. heartlandregionaltpo.org or contact Marybeth Soderstrom at (863) 534-7130 or msoderstrom@cfrpc.org.

### **Requirements for Public Participation**

Regional transportation planning is guided by laws, rules, and policies set forth at the federal and state level. Both federal and state laws require public participation in the planning process. Transportation planning activities must also consider other laws and regulations including, but not limited to, the National Environmental Policy Act (NEPA), Clean Air Act, Clean Water Act, Civil Rights Act, and Americans with Disabilities (ADA) Act.

#### **Federal Requirements**

The emphasis on public involvement/public participation has grown in importance as federal transportation laws and rules have changed. Transportation Planning Organizations develop Public Participation Plans in consultation with a variety of interested parties. Public meetings must be held at convenient times and accessible locations and use electronic methods and visualization techniques to provide information to the public. See Appendix A.

- These regulations are found in 23 Code of Federal Regulations (CFR) Part 450.212 and 450.316 to guide the development of statewide, local and metropolitan transportation plans and programs. These regulations also include the following:
  - Early and continuous public involvement opportunities throughout the planning and programming process;
  - Timely information to citizens, affected public agencies, representatives of transportation agencies, private sector transportation entities and other interested parties, including segments of the community affected by transportation plans, programs, and projects;
  - Reasonable access to information;
  - Adequate public notice of public involvement activities and ample time for public review and comment at key decision points;
  - Explicit consideration and response to public comment;
  - Consideration of the needs of the traditionally underserved, including low-income and minority citizens;
  - Periodic review of public involvement efforts by the Transportation Planning Organization (TPO) to ensure full and open access to all;
  - Review of public involvement procedures by the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) when necessary; and
  - Coordination of TPO public involvement processes with statewide efforts whenever possible.
- The National Environmental Policy Act of 1969 (NEPA) established a national policy for the protection of the environment. NEPA requires the consideration of potential impacts on social and natural resources during transportation decision-making.
- In addition, the Americans with Disabilities Act (ADA) requires reasonable efforts be made to accommodate citizens with disabilities who wish to attend public meetings.

#### **State Requirements**

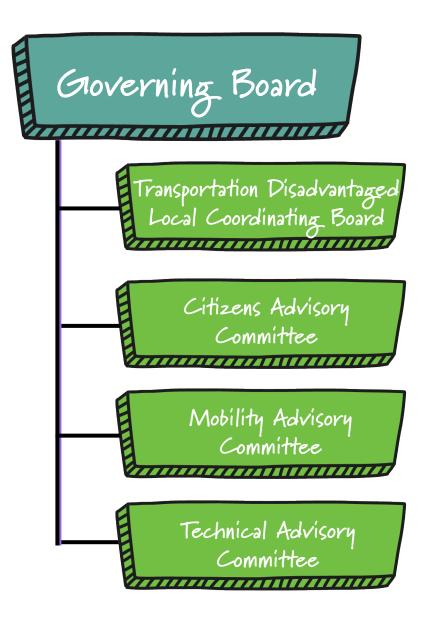

- Chapter 339.155, Florida Statutes (F.S.) addresses public involvement in transportation planning. It requires that citizens, public agencies and other known interested parties be given the opportunity to comment on the long-range component of the Florida Transportation Plan (FTP) and before substantive revisions to the Plan. It also requires hearings during the development of major transportation improvements.
- Chapter 339.175, F.S. requires public involvement in the development of the Long Range Transportation Plan (LRTP) and the Transportation Improvement Program (TIP).
- Chapter 286, F.S., commonly known as "The Sunshine Law", addresses public access to governmental proceedings at the state and local level. The Sunshine Law requires that meetings of boards or commissions be open to the public, reasonable notice of such meetings be given, and minutes taken and made available to the public in a timely manner.

The TPO is a legislative body with the power to develop and adopt plans, manage priorities for improvements to the transportation system, and program and administer federal and state planning grants

The HRTPO is managed by a governing board of elected officials representing local jurisdictions. The board is supported by three advisory committees and the two transportation disadvantaged boards in the region. Each fulfills an important role in the transportation

planning process within Heartland region. Public notifications are made for all regular and special business meetings of the board and committees. All meetings are conducted in an open public forum with an opportunity for public comment. To engage the broadest input of all citizens, at least one public meeting or workshop will be held in each county each year.

### **Governing Board**

The HRTPO is the primary agency responsible for transportation planning in DeSoto, Glades, Hardee, Hendry, Highlands and Okeechobee Counties. The HRTPO Board consists of 12 voting members representing eight local governments and one non-voting adviser from the Florida Department of Transportation (FDOT).

County	County Population 2010	% of Total Regional Population	Number of Members	Weight Per Voting Member
DeSoto	34,862	13.76%	1.0	13.76%
Glades	12,884	5.08%	1.0	5.08%
Hardee	27,731	10.94%	1.0	<b>10.94</b> %
Hendry	39,140	15.45%	1.0	15.45%
Okeechobee	39,996	15.78%	1.0	15.78%
Highlands (Unincorporated) + Lake Placid	79,459	31.36%	5.0	6.27%
Avon Park	8,836	3.49%	1.0	3.49%
Sebring	10,491	4.14%	1.0	4.14%
FDOT	N/A	N/A	1.0	Non-voting
Sub Total:	253,399	100.00%	12.00	100.0%

Source: US Census Population 2010

The HRTPO Board is ultimately responsible for implementing transportation plans in the six-county area

#### Meetings

The HRTPO Board meets at least quarterly to discuss issues and make informed decisions about future transportation projects, initiatives and improvements – providing leadership for a continuous, cooperative and comprehensive transportation planning process.

Meetings are at a date, time and place acceptable to a majority of the voting members, typically on the third Wednesday of February, April, June, September, and November. At the last scheduled meeting in a calendar year, a regular meeting schedule for the next calendar year will be adopted by the HRTPO Board. Other meetings may be scheduled by the Chair at the request of HRTPO staff. Notice of such meetings will be given to members at least seven (7) days in advance. Special meetings may be called by the Chair with a minimum of three (3) calendar days' notice indicating the reason for the meeting and notifying all members of the HRTPO Board. In the event of an emergency meeting reasonable public notice will be given for amendments and will not be bound by the timeframes outlined on page 3.2.

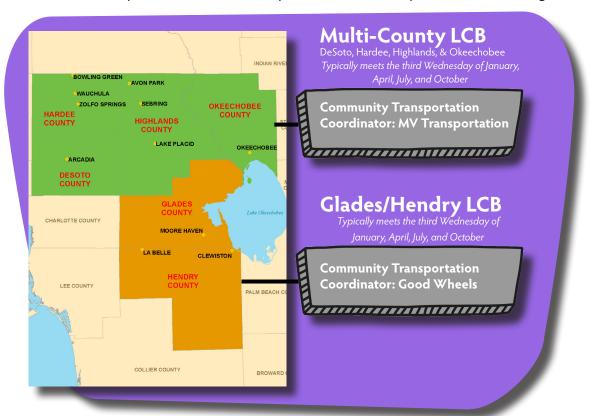

For the most up-to-date meeting information, visit the website calendar on www.heartlandregionaltpo.org. Meeting agenda packets for the TPO Board and its committee meetings will be posted on the HRTPO's website at least seven (7) days in advance of a meeting.

### **Transportation Disadvantaged Local Coordinating Boards**

As the designated planning agency for the region, the HRTPO provides staff support to the transportation disadvantaged Local Coordinating Boards (LCBs) in the region. These board coordinate transportation needs of the disadvantaged in our community, including individuals with physical and economic challenges and senior citizens facing mobility issues. The transportation disadvantaged local coordinating boards assists the HRTPO in identifying local service needs and provides information, advice, and direction to the Community Transportation Coordinator (CTC) (Chapter 427 F.S) on the coordination of transportation services to be provided to the transportation disadvantaged.

#### Meetings

The LCBs will meet at least quarterly at a date, time and place acceptable to a majority of the voting member. Public Notice will be given seven days in advance of all meetings, posted on the HRTPO website at www. heartlandregionaltpo. org and distributed to local media outlets. These meetings are open to the public and provide an opportunity for interested parties to hear and discuss transportation issues.

#### Local Coordinating Board Membership

An elected official who will serve as chair (in areas where there is a multi-county system an elected official from each county will serve)

A representative from each of the following: Florida Department of Transportation, Florida Department of Children and Family Services, Public Education community, Florida Division of Vocational Rehabilitation or Division of Blind Services, Local Veterans Service Office, Florida Association for Community Action, local Mass Transit or Public Transit System, Florida Department of Elderly Affairs, Florida Agency for Health Care Administration, local Workforce Board

A person over sixty years of age representing the elderly

A person with a disability representing the disabled in the service area

Two citizen advocates representatives in the service area; one who must be a person who uses the transportation service(s) as their primary means of transportation

A local representative for children at risk

A representative of the local medical community

Each LCB operates under its own adopted Bylaws and elects its own officers. All other members are chosen from a cross–section of the community and can either request to serve on the board through an application process or can be recommended by community civic and social organizations. Contact the HRTPO for an application.

### Committees

#### **Citizens Advisory Committee (CAC)**

The Citizens Advisory Committee (CAC) is a volunteer group consisting of representatives from professional associations, neighborhood associations, civic and community organizations, and the private sector representing

individuals with disabilities, minority groups, and geographic areas of the region. The CAC provides an avenue for obtaining public input for the deliberations on transportation issues. The CAC assist in identifying the needs of the public and potential outreach opportunities. Comments received from the CAC members and non-members are treated equally.

Membership of the CAC includes two citizens from each member county, and one member each from the cities of Avon Park and Sebring totaling 14 members. The CAC operates under its own adopted Bylaws and elects its own officers. A broad cross section of the six-county region, the Citizens Advisory Committee will meet on a regular basis providing input on HRTPO work products and plans.

CAC members are selected based upon application submitted to the HRTPO. Application forms are available at www.heartlandregionaltpo.org by contacting the HRTPO at info@heartlandregionaltpo.org. Applications must be reviewed and approved by the TPO local member government where the applicant resides or works. Completed applications will be placed on the HRTPO agenda for consideration to fill vacancies. The same selection procedures apply to Alternates that may be designated for voting members.

#### **CAC Meetings**

The CAC will meet at least quarterly at a date, time and place acceptable to a majority of the voting members, typically on the forth Thursday of January, March, May, August, and October. Public Notice will be given seven days in advance of all meetings, posted on the HRTPO website at www.heartlandregionaltpo.org and distributed to local media outlets. These meetings are open to the public and provide an opportunity for interested parties to hear and discuss transportation issues.

#### **Mobility Advisory Committee (MAC)**

The HRTPO established the Mobility Advisory Committee (MAC) on April 19, 2017 to serve initially as the steering committee to help guide and direct the Transit Development Plan (TDP) for Highlands County. The MAC member was then expanded to assist in the development of the Heartland Rural Mobility Plan. In the future, the MAC membership will assist in developing and guiding multimodal input including bicycle, pedestrian, trails, transit and other mobility modes.

The Mobility Advisory Committee assisted in the development of the Highlands Transit Plan and the Heartland Rural Mobility Plan

#### Meetings

The committee will meet as needed, at a time and place acceptable to a majority of the voting members. Public Notice will be given seven days in advance of all meetings and notice will be posted on the HRTPO website at www. heartlandregionaltpo.org.

#### **Technical Advisory Committee (TAC)**

The Technical Advisory Committee (TAC) is made up of engineers, planners or other staff of local governments and agencies which review HRTPO work products and plans before they are presented to the Board. The TAC operates under its own adopted Bylaws and elects its own officers. The TAC includes up to 25 members.

The HRTPO Board's Technical Advisory Committee (TAC) is composed of technically qualified representatives of agencies responsible for maintaining, controlling, developing and improving the transportation system within the Heartland region, including the Cities of Sebring and Avon Park, the six counties, the Sebring Airport Authority, the Central Florida Regional Planning Council and the Southwest Florida Regional Planning Council. Other municipalities within the six counties will be invited to participate, including those operating municipal airports and local school board officials. Committee duties include coordination of transportation plans and programs arising from the review of all transportation technical studies and reports.

The TAC will be represented with the following membership through staff assignment by the local government or agency:

Two staff members of each HRTPO County	DeSoto, Glades, Hardee, Hendry, Highlands, Okeechobee	12 Members
One staff member each from the cities	Avon Park, Sebring	Two (2) Members
One staff member from the following municipalities	Arcadia, Clewiston, Lake Placid, LaBelle, Moore Haven, Okeechobee City, Wauchula	Seven (7) Members
One staff member from the following agencies or authorities	Sebring Airport Authority Central Florida Regional Planning Council Southwest Florida Regional Planning Council	Three (3) Members
One staff member representin	g public schools in the Heartland Region	One (1) Member
One staff ex-officio member fr	om Florida Department of Transportation (FDOT)	One (1) Non-voting Member

#### **TAC Meetings**

The committee will meet at least quarterly at a date, time and place acceptable to a majority of the voting members, typically on the third Wednesday of January, March, May, August, and October . Public Notice will be given seven days in advance of all meetings and notice will be posted on the HRTPO website at heartlandregionaltpo.org.

The Technical Advisory Committee presented a certificate of appreciation to Arcadia City Administrator Terry Stewart, who served as chair of the TAC from its formational meeting in 2015 through 2017.

The HRTPO is responsible for four core documents in order to be certified by the federal government as eligible to program and receive federal transportation funds. Public participation requirements prescribed by the federal government vary by document, but all of these plans and programs are completed through an open process that allows for public review and feedback throughout various stages of plan development. Final products and reports are adopted after careful consideration of community comment. HRTPO plans may be revised without formal TPO action or public comment period to update information such as contact information, addresses or locations, and scribal errors. Other administrative changes may be made by HRTPO staff as authorized by the Board.

# As these documents are developed, they are made available on the HRTPO website and copies are provided to each HRTPO member government

Long Range Transportation Plan (LRTP)	<ul> <li>transportation modes</li> <li>Includes long and short range goals and strategies</li> <li>Identifies funding sources and estimates costs</li> <li>Provides framework for choosing transportation projects</li> <li>Includes local government projects</li> <li>Required by: 23 USC 134, 49 USC 5303, 23 CFR 450.322, an</li> </ul>	Adopted: Every five years Amended: As needed Public Comment: 30 days prior to adoption, seven (7) days prior to amendment, and continuous during the plan development of the LRTP. d Section 339.175, FS
Transportation Improvement Program (TIP)	<ul> <li>Identifies HRTPO priority projects</li> <li>Provides 5-year implementation schedule</li> <li>Allocates state and federal funds for capital projects</li> <li>Becomes part of the Statewide TIP (STIP)</li> <li>Required by: 23 CFR 450.324, Section 339.175, FS, Section Section 339.175, FS</li> </ul>	Adopted: Every year Amended: As needed Public Comment: 30 days prior to adoption, seven (7) days prior to amendment, and continuous during the development of the TIP. 163.3161et seq., FS, 23 CFR 450.324,
Unified Planning Work Program (UPWP)	<ul> <li>Summarizes planning tasks to be completed by the HRTPO</li> <li>Defines work products and timeline for major activities</li> <li>Proposes budget using federal and other funds for planning</li> <li>Estimates cost for each task</li> </ul>	Adopted: Every two years Amended: As needed Public Comment: 30 days prior to adoption, seven (7) days prior to amendment, and continuous during the development of the UPWP.

Public Participation Plan (PPP)	<ul> <li>Outlines organizational structure and work products</li> <li>Describes HRTPO public communication tools</li> <li>Prescribes public comment periods</li> <li>Offers opportunities for public involvement</li> </ul> Required by: 23 USC134(i)(5)(B), 23 CFR 450.316(a), 23 CFR	Adopted: Every three years Amended: As needed Public Comment: 45 days prior to adoption with seven day notice for public meeting and seven (7) days prior to amendment, continuous during the development of the PPP.

# **Summary of Public Participation Procedures** The HRTPO follows agency organization and operation policies that provide specific guidelines for public records and

public access.

	rtunities For pation	Schedule	Public Comment Period	Public Notice	Public Access
<b>Open Meeting</b>	js				
Governing Board	HRTPO	Meets at least 4x/yr	At every meeting	7 days public notice	Summary of advance public
Local Coordinating	Boards	Meets at least 4x/yr	At every meeting	7 days public notice	comments provided in writing,
Committees	Citizen Advisory Technical Advisory	Meets at least 4x/yr	At every meeting	7 days public notice	opportunity for additional public comment at all meetings and prior
	Mobility Advisory	Meets as necessary	At every meeting	7 days public notice	to adoption of plans
<b>Plan and Prog</b>	ram Adoption				
Long Range Transportation Plan	LRTP	Every five years	30 days	37 days public notice	Posted on HRTPO website with public notice, hard
Transportation Improvement Program	TIP	Every year	30 days	37 days public notice	copies available, advance comments documented for
Unified Planning Work Program	UPWP	Every two years	30 days	37 days public notice	review, opportunity for comment at all
Public Participation Plan	РРР	Every three years	45 days	52 days public notice	meetings prior to adoption
Amendments	to Adopted Pla	ans and Progra	ms		
Long Range Transportation Plan	LRTP	As needed	7 days	7 days public notice	
Transportation	TIP	As needed	7 days	7 days public notice	Posted on HRTPO website with public notice, hard
Improvement Program	consistency between the Tentative Work Program	e adopted Transportation I . If an administrative ame	mendments to the TIP in order mprovement Program (TIP) ndment is made, the amendi al item at the next regularly s	and the FDOT ment would be	copies available, opportunity for comment at all meetings prior to
Unified Planning Work Program	UPWP	As needed	7 days	7 days public notice	adoption
Public Participation Plan	РРР	As needed	7 days	7 days public notice	

In the event of an emergency meeting, reasonable public notice will be given for amendments and will not be bound by the timeframes outlined above.

Public involvement activities must be accessible to anyone who has an interest in transportation, regardless of race, age, income level, language or disability.

As different involvement techniques may be required to ensure inclusion, it is important for the HRTPO to gain an understanding of all the populations that work, live, and play in the area, so that communications methods can be tailored to their needs and preferences. Making sure that all interested members of the public are provided the opportunity to have input into our projects also helps the HRTPO comply with federal nondiscrimination regulations, including Title VI and environmental justice.

In addition to legal requirements, the more that is known about the study area population, the more effective the public involvement will be. The HRTPO will complete a Community Characteristics Inventory to further identify opportunities to provide meaningful public involvement opportunities to all populations in the Heartland.

# **Traditionally Undeserved Populations**

HRTPO staff will make specific efforts to engage communities that traditionally have not been participants in the governmental planning processes. Traditional non-participants tend to include persons who are lowincome, minority, elderly or youth, individuals with disabilities, have no vehicles, and/or have low levels of literacy or have limited English proficiency. Staff will identify opportunities and strategies that will provide these communities greater access to the transportation planning process. Communities will be identified that require more extensive public participation outreach efforts through the census and local data available, and relationships with key leaders and organizations within the communities.

Accommodations will be made to ensure all populations are given the opportunity to participate in the transportation planning process when available.

# Limited English Proficiency (LEP) Plan

The HRTPO adopted a Limited English Proficiency (LEP) Plan on February 22, 2018 that identifies the Limited English Proficient populations in our service area and provides guidelines for TPO staff to help ensure that information and services are accessible to LEP persons. View the plan on our website at www. heartlandregionaltpo.org. Translation services will be made available for all HRTPO meetings and documents as requested.

### Native American Tribal Governments

The HRTPO will offer the Native American Tribal Governments located in the region the opportunity to participate in all HRTPO public participation activities and will formally notice the tribes of any products or significant processes of the TPO via registered US mail.

The HRTPO area includes:

- Big Cypress Indian Reservation
- Brighton Seminole Indian Reservation

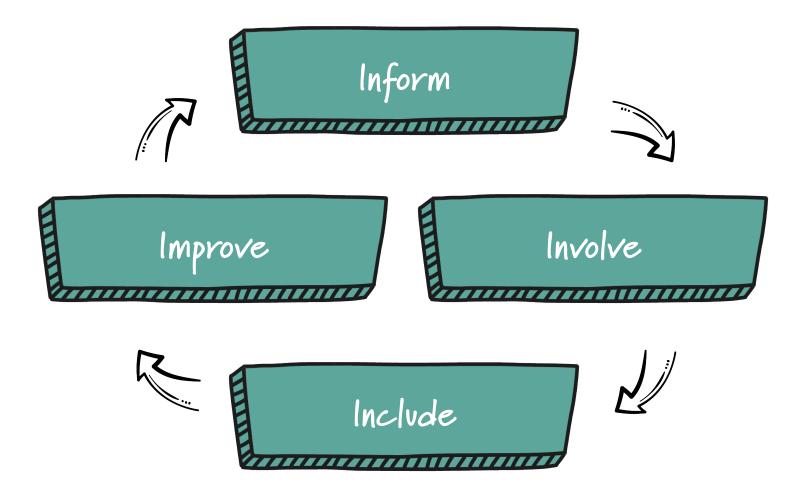

Accommodations may include: Accommodations may be made to ensure all populations are given the opportunity to participate in the transportation planning process when available. Below is a chart that is used by HRTPO staff to help determine examples of accommodations that may helpful to ensure full and fair participation.	Seniors	Youth	Hearing Impaired	Sight Impaired	Physically Challenged	No High School	Low Income	Non-English Speakers	Transit Disadvantaged	Shift Worker
Provide extended or special meeting hours	х	х							х	х
Plan a special meeting in a convenient location	х	х		х	х		х		х	х
Incorporate games or similar activities		х				х				
Provide written materials			х							
Provide American Sign Language interpreters			х							
Use plain language guidance	х	х	х	х	х	х	х	х	х	х
Post meeting notices and project information in convenient locations						х	х		х	
Contact via telephone				х	х					
Ensure meeting location meets ADA requirements	х		х	х	х				х	
Place display materials at an accessible level during meetings	х				х					
Provide verbal assistance to convey the written information displayed at meetings				х		х				
Provide translated materials in languages other than English								х		
Ensure bilingual staff is available at public meetings as requested								х		

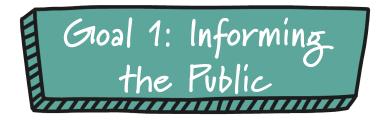

### Public Participation Goals, Strategies, Measurements, and Success

Public participation is an on-going activity. The HRTPO has a variety of approaches for communicating and consulting with the public and is continually working to improve its outreach. These are the primary tools used to interact with stakeholders

and the community. On an annual basis, public participation activities will be evaluated and compiled into a report and will be made available for review by the HRTPO Board, committees, and general public.

Inform the public, to the maximum extent possible with available resources, of opportunities to participate in the transportation decision-making process.

#### How we will inform the public

- Provide adequate notice of all meetings to HRTPO members, committee members, and interested parties by mail or email at least 7 days in advance.
- Disseminate press releases announcing meetings and activities, opportunities for public participation, and the availability of documents for public review.
- Post meeting agendas on web page at least 7 days in advance.
- Distribute summary of HRTPO Board meetings including presentations, actions taken, and documents developed to the agency's mailing list.
- Include provisions in meeting announcements for interested persons to respond in writing, by phone or by e-mail.
- Include in public notices posted by the HRTPO that upon request and adequate notice, assistance will be provided to the hearing and visually impaired, those with limited English proficiency, the transportation disadvantaged, and others requiring special assistance.
- Maintain an agency's mailing list of all interested parties and their preferred contact method including US mail, e-mail, SMS text messaging, or phone. Coordinate with local government redevelopment agencies, non-profit agencies, and others who have already developed community contacts to build the list.

#### How we will keep track

- A Public Involvement Report will be developed annually that tracks progress of public participation including meetings, direct participant outreach efforts, comments received, efforts to include Traditionally Underserved and Limited English populations, and feedback from participants in the transportation planning process.
- Information on the demographic characteristics of persons who attend transportation-related meetings, are members of established committees, or otherwise participate in the transportation decision making process will seek to tracked annually including race, ethnicity or national origin, age, gender, income, education, and occupation. A crucial piece of information is the participant's address or ZIP code.

How we	measure success
	At least one meeting or opportunity is located in each county annually.
	Translators are available at public meetings in areas where a high proportion of the affected population comprises non-English speakers or when requested.
	100% of board and committee meetings are accessible to persons with disabilities.

# Involve the public early and often in the transportation planning process.

#### How we will involve the public

- Maintain active, standing committees such as the TAC, CAC, and LCBs so residents have an opportunity to participate in the continuous transportation planning process.
- Include a feature on the HRTPO's web page allowing the public to e-mail staff with questions or comments.
- Design a community engagement strategy that incorporates a complementary mix of smaller, community-based forums, large-scale public forums and online opportunities for engagement.
- Inform HRTPO members of recommendations from the TAC, CAC, and MAC and inform HRTPO members of trends indicated from other contacts with the public.
- Allocate time for public input on each committee's agenda.
- Respond to citizen, agency and media queries on all HRTPO related topics and plans, providing interim responses while questions are being researched.
- Make comment forms available to solicit input in writing at public meetings or online.

#### How we will keep track

- Written minutes of meetings are kept and made available to the public. Minutes include a list of participants and a summary of public comments.
- For web and email activities, electronic tracking is used to track distribution of information as well as the number of people visiting the sites and the type of information they are seeking.
- Sign in sheets or attendance records are used to track participation at meetings and events.
- Data may be obtained through responses to questionnaires that are distributed. Participants surveyed would be obtained from the agency's mailing list of participating partners, organizations and individuals.
- A log of public requests will be maintained by the HRTPO noting time and date of request and agency responses to questions.

How we	measure success
	100% of HRTPO meetings have comment cards available.
	100% of HRTPO committee meetings will have time for public input on the agenda.
	Responses to public inquiries are made within 3 working days of the date of receipt.
	Responses to media inquiries are made within 1 working day of the date of receipt.

Reach out to the geographical, organizational and demographic communities that composed the HRTPO planning area to increase the opportunity to participate in developing transportation plans and services.

#### How we will include the public

- Maintain a website that provides current information about the HRTPO activities, members, meetings, and contacts. The website will allow visitors to get to know the regional projects with visual tools and a Frequently Asked Questions section and provide links to other websites of interest.
- Distribute HRTPO informational printed materials including brochures.
- Engage in online social platforms as a communication tool to inform and include the general public, partner governments, community organizations, and traditionally underserved communities and drive traffic to the HRTPO website.
- Participate in community outreach events, providing additional opportunities to include traditionally underserved communities.
- As HRTPO plans and programs are developed, distribute copies to public libraries and public facilities in the region.
- Speak at local civic group meetings, schools, leadership courses, and conferences about transportation planning as requested.

#### How we will keep track

- Website traffic will be monitored and reported annually.
- Social media statistics will be monitored and reported annually.
- Number of outreach events, speaking engagements, and material displays at public facilities will be monitored and reported annually.

Н	ow we measure success
	Interested governments, organizations, user groups, and individuals will have the opportunity to share their level of satisfaction on the HRTPO public participation process.
	Specific efforts will be made to include traditionally underserved populations in 100% of the region's counties.
	Placement of HRTPO materials at 100% of public libraries in the region.

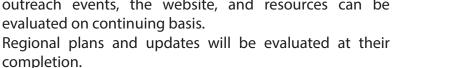

**Continually identify and implement** ways to improve the public participation processes.

#### How we will improve the public involvement process

- Look for opportunities to add and create strategies that • will reach greater numbers and more diverse populations.
- Continue expansion of regional inter-TPO coordination of • public participation activities, particularly when projects may directly involve residents from adjacent counties.
- Provide the annual Public Involvement Report to HRTPO Board and Committees to review the effectiveness of public participation techniques and discuss ways to improve community outreach activities.

#### How we will keep track

General community engagement activities such as outreach events, the website, and resources can be evaluated on continuing basis.

How we me	easure success
Q	uantity, quality and relevance of comments received.
N	umber of opportunities for engagement.
N	umber of meeting attendees both online and face-to-face.
N	umber of participants in online social media formats and other online events.
A	mount of media coverage.
Pe	ercentage of materials translated in languages other than English.
D	iversity of participation by geographic location, age, and ethnic diversity.
Q	uality of environmental justice dialogue/feedback.
	larity of informational resources, including visualization/interactivity/printed documents/ ideos.
	umber and effectiveness of partnerships and coordination with partner agencies, nonprofit rganizations and other outreach organizations.

# **Appendix A: Relevant State Statutes and Federal Regulations**

#### Safe, Accountable, Flexible, and Efficient Transportation Equity Act (SAFETEA-LU) in 2005

• Previously the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 required states and TPOs to involve the public to a much greater extent in transportation decision-making than under previous law. When ISTEA expired in 1998, it was replaced by the Transportation Equity Act for the 21st Century (TEA-21) which continued to put a strong emphasis on public participation.

#### Moving Ahead for Progress in the 21st Century Act (MAP21)

- MAP-21 was enacted in 2012, and carries forward all of the advancements in public participation from the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) legislation.
- MAP-21 continues to support previous federal public participation guidelines and adds new requirements, including the development of a Public Participation Plan by TPOs in consultation with interested parties; the addition of bicycle and pedestrian facilities users and the disabled as interested parties; public meetings to be held at convenient times and accessible locations; and the use of electronic methods and visualization techniques to provide information to the public. With MAP-21, public participation remains a hallmark of the transportation planning process.

#### Americans with Disabilities Act of 1990 (ADA)

- Title II of this Act, 42 United States Code (USC) Sections 12131-12134, prohibits the exclusion of persons
  with disabilities from participation in services, programs, or activities of a public entity. This is the basis for
  the Department of Transportation's standard language (see Part 1, Chapter 11, Section 11-2.4 of the Project
  Development and Environment [PD&E] Manual) regarding accommodating persons with disabilities for such
  issues as hearing or visual impairment.
- Title III of this Act, 42 USC Sections 12181-12189, requires public accommodations to provide equivalent access to individuals with disabilities. This is important for public involvement activities, as the locations of public meetings, workshops, and hearings should be accessible.

#### Title VI of the Civil Rights Act of 1964 and Other Nondiscrimination Laws

- Title VI, 42 USC Sections 2000d-2000d-1, prohibits federally assisted programs from discrimination based on race, color, or national origin. Since public funds are comprised of contributions from taxpayers of all races, colors, and national origins, fairness requires that federal activities receiving such funds be conducted in a manner that discourages racial discrimination.
- Age Discrimination Act of 1975, 42 USC Sections 6101-6107, prohibits federally assisted programs from discrimination based on age.

#### Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations

- Directs federal agencies to identify and address any disproportionately high and adverse human health or environmental effects of their actions on minority and low-income populations.
- Requires each agency to develop a strategy for evaluating environmental justice.
- Promotes access by minority and low-income communities to public information and public participation.

#### Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency

- Requires agencies to develop plans so that people for whom English is not their native language or who have a limited ability to read, speak, write, or understand English can have meaningful access to the services provided.
- Requires recipients of federal funding to also provide meaningful access.
- Factors for determining when meaningful access is necessary include:
  - Number or proportion of limited English proficiency (LEP) persons in the affected area,
  - Frequency of contact with LEP persons,
  - Importance of the service provided to LEP persons, and resources available.
  - What methods of communication constitute meaningful access?
  - Translation of vital documents into languages other than English
  - Oral interpretation through translators or other interpretive services
- These services must be provided free of cost to the recipient

#### Florida Statute 286.011 Public Meetings and Records

- The Florida Sunshine Law mandates that meetings of the HRTPO and its committees, workshops, and programs are open to the public.
- All public records of the HRTPO are open for inspection and examination at the office of the Heartland Regional Transportation Planning Organization, 555 East Church Street, Bartow, FL 33830 on regular business days between the hours of 8:00 a.m. and 5:00 p.m.

#### Executive Order 07-01, Section 2 - Plain Language Initiative

• The purpose of this initiative is to ensure that announcements, publications, and other documents provided by state agencies contain "clear and concise" information. Specific requirements include: Use of common language instead of technical jargon, Providing only the pertinent information in an organized manner, Use of short sentences and active voice, and Layout and design that are user friendly.

#### Section 120.525, FS, Administrative Procedures Act

- Requires notice of public meetings, hearings, and workshops by publication in the Florida Administrative Register (FAR) and on the agency's website, no less than seven (7) days prior to the event. Includes the general subject matter to be considered.
- Requires an agenda (containing the items to be considered in order of presentation) to be prepared and published on the agency's website.

#### Section 286.011, FS, Public Business (Government in the Sunshine)

- Declares all meetings of any board or commission of any state, county, municipal, or political subdivision, agency, or authority to be public meetings that are open to the public at all times.
- Requires reasonable notice of all such meetings.
- Requires minutes of any such meeting to be available for public inspection.
- Prohibits public meetings from being held at a facility or location that discriminates on the basis of sex, age, race, creed, color, origin, or economic status or that otherwise restricts public access.
- Establishes penalties for violation of these provisions and exceptions for specific situations.

#### Section 286.29, FS, Public Business (Green Lodging)

• Requires state agencies to contract for meeting and conference space only with hotels or conference facilities that have been designated as Green Lodging facilities by the Florida Department of Environmental Protection (FDEP).

#### Section 335.199, FS, State Highway System (Access Modification)

• Requires notification of all affected property owners, municipalities, and counties at least 180 days prior to design finalization of any project on the State Highway System that modifies or otherwise affects access to the facility. Requires at least one public hearing in the jurisdiction where the project is located.

#### Jessica Lunsford Act

 Codified in Title XLVIII K-20 Education Code, Chapter 1012 Personnel, §1012.465-1012.468, this law requires background checks of any person entering school grounds when children are present. As a result of this, FDOT adopted a policy that K-12 educational facilities should not be used for public meetings and hearings. There is a provision for exceptions.

# Appendix C: HRTPO Response to Agency and Public Comments

The comment period for the Draft Public Participation Plan began on September 4, 2018, and comments were accepted through October 19, 2018. The PPP was reviewed and recommended for adoption by the Technical Advisory Committee at their meeting on October 17, 2018, and by the Citizens Advisory Committee at their meeting on October 25, 2018.

After the comment period closed and all input had been considered, the draft plan was presented for final adoption to the HRTPO Board at their meeting on November 28, 2018, with at least seven (7) days public notice.

Agency/ Public	Comment	TPO Response	PPP Page
Highlands County Citizen	I am an interested citizen in the effort and have reviewed the current document and it is my view that it is very effective in presenting the current status of its efforts. Thanks for keeping me on the public comment list.	Thank you for your review and comment.	
Federal Highway Administration (These comments were received verbally during a review of the HRTPO's Title VI program)	Suggestion to add the typical days and months that the HRTPO Board and Committees meet	The typical meeting day and month were added for each of the committees as well as the HRTPO Board.	2.2 2.3 2.4 2.5
	Suggestion to add clarifying language to chart on page 4.2.	Clarifying language was added on page 4.2 to describe that accommodations listed are examples of general guidelines for staff.	4.2
