Transportation Improvement Program

FISCAL YEARS 2024/25 - 2028/29

The preparation of this document has been financed in part through a grant from the U.S. Department of Transportation (Federal Highway Administration) in cooperation with the Florida Department of Transportation, the urbanized area of Highlands County including the cities of Sebring and Avon Park; and the counties of DeSoto, Glades, Hardee, Hendry, Highlands and Okeechobee.

Introduction

Purpose

The purpose of the Transportation Improvement Program (TIP) is to provide a staged, multi-year, intermodal program of transportation projects. The TIP is consistent with the adopted Heartland Regional Transportation Planning Organization's (HRTPO's) 2045 Long Range Transportation Plan (LRTP). The TIP is required of all metropolitan areas, under Section 134 of Title 23 and Title 49, United States Code (USC), and 23 CFR Part 450 Sections 320, 324, 326, 328, 330 and 332; and subsection 339.175(6) and (8), Florida Statutes (F.S.), the Moving Ahead for Progress in the 21st Century Act (MAP-21) and reaffirmed in the Fixing America's Surface Transportation Act (FAST Act) signed into law on December 4, 2015.

The HRTPO's TIP contains all transportation projects within DeSoto, Glades, Hardee, Hendry, Highlands and Okeechobee Counties, which are the six (6) counties that comprise the Heartland Regional Transportation Planning Organization. These projects are those designated for funding from Title 23 and Title 49 funding sources and all regionally significant transportation projects requiring federal action. Projects contained in the TIP include highways, aviation, pedestrian and bicycle facilities, and transportation disadvantaged projects regardless of funding source. The TIP ensures coordination for transportation improvements by local, state and federal agencies.

Financial Plan

The HRTPO 2024/25 - 2028/29 TIP serves as a five-year financially feasible program of improvements for all modes of transportation within the six (6) Heartland counties referenced above and was developed in cooperation with the FDOT and public transit operators [23 CFR. 450.326(a) and subsection 339.175(8) F.S.,]. The TIP is financially constrained for each year and able to be implemented for each year using Year of Expenditure (YOE) dollars. YOE dollars are adjusted for inflation from the present time to the expected year of construction. Federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT's Tentative Work Program. As required by federal and state law, a summary of available funds by funding category and project type for the state and federally funded projects contained within the TIP has been included [23 CFR. 450.324(a) and Subsection 339.175(8), F. S.] The detailed project listing and financial summary contain system-level estimates of costs and revenue sources that are reasonably expected to be available to adequately operate and maintain Federal-aid highways (as defined by 23 U.S. C. 101(a)(5)) and public transportation (as defined by title 49 USC. Chapter 53) [23 CFR 450.324 (h)]. To further ensure the financial soundness of the TIP, all projects funded by the Florida Department of Transportation with federal or non-federal dollars are considered committed projects if included in the first three years of the FDOT Five-Year Work Program. Section 339.135(4)(b)(5) Florida Statutes mandates the FDOT Work Program include a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the Work Program.

Total Project Revenues and Cost

Total Project Revenues align with the total Project Costs with a five-year total of \$752 million. Projects included have a revenue and cost of \$153 million prior to the five-year period and will have revenues and costs of \$27 million after the five-period.

TOTAL PROJECT REVENUES						
	2024-25	2025-26	2026-27	2027-28	2028-29	5 Year Total

How to get full project costs and other project details: Projects on the Strategic Intermodal System (SIS)

The normal project production sequence is to have a Planning, Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase if land is not needed to complete the project. Costs on the TIP pages for projects on the Strategic Intermodal System (SIS) will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program. The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deep-water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS will have a SIS identifier on the project. For costs beyond the 10-year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the LRTP is <http://www.hrtpo2045.org>. References to the 2045 LRTP are included to provide full project costs and/or additional details regarding the project.

How to get full project costs and other project details

The "Total Project Cost" amount displayed for each of the federal and state funded projects in the TIP represents 10 years of programming in the Florida Department of Transportation's (FDOT's) Work Program database. The "Total Project Cost" is included for projects on the Strategic Intermodal System (SIS) (FYs 2023 through 2033), and 5 years of programming in the FDOT Work Program for non-SIS projects (FYs 2025 through 2029), plus historical cost information for all projects having expenditures paid by FDOT prior to FY2022. For a more comprehensive view of a particular project's anticipated total project cost for all phases of the project please refer to the LRTP.

Annual Obligations Report

Section 134 of Title 23, United State Code, requires an annual listing of projects for which federal funds that have been obligated in the preceding year shall be published or otherwise made available by the metropolitan planning organizations for public review. A link to the current Annual Obligations Report for the Heartland Regional Transportation Planning Organization may be found at <http://heartlandregionaltpo.org/programs-and-plans/>.

Major Projects Implemented or Significantly Delayed

The major projects in the Heartland Region include the improvements of transportation facilities that serve the regional transportation needs. The following major projects were listed in the previous FY 2023/24 – FY 2027/28 TIP.

County	Facility	Description	Status
DeSoto	Item Number: 437099 1: Roberts Avenue East Gibson Street Nursing Home Drive	Sidewalk	Complete And/Or Fully Funded
DeSoto	Item Number: 438259 1: East Maple Street Sidewalk From North Mills Ave To North La Solona Ave	Sidewalk	Complete And/Or Fully Funded

Okeechobee	Item Number: 446209 1: Sr 710 From Interceptor Creek To N Of Se 67th Way	Resurfacing	Complete And/Or Fully Funded

Consistency with Other Plans

HRTPO Long Range Transportation Plan

All projects included in the TIP are consistent with: the HRTPO's 2045 LRTP adopted on March 10, 2021; all adopted comprehensive plans for local governments within the six (6) Heartland counties; and all applicable modal plans.

FDOT Freight Plan

The TIP includes specific investment priorities that support all of the TPO's goals including freight, using a prioritization and project selection process established in the LRTP.

FDOT Asset Management Plan

The TIP includes specific investment priorities that support all of the TPO's goals including modal options, using a prioritization and project selection process established in the LRTP.

Public Involvement

The HRTPO has a strong commitment to ensure public involvement in the transportation planning process. Adopted in March 2023, the Public Participation Plan (PPP) provides guidelines used by the HRTPO to inform and gather input from residents, communities, and interest groups throughout the six counties in order to expand the information available for planning. Following the guidelines in the PPP, and following the requirements of 23 CFR 450.324, Section 339.175, FS, Section 163.3161 et seq., FS, 23, and CFR 450.324, Section 339.175, FS, the HRTPO will make the draft document available for public comment 30 days prior to adoption, seven (7) days prior to amendment, and continuously during development. The TIP is reviewed by the Citizens Advisory Committee (CAC), the Technical Advisory Committee (TAC), and the HRTPO Board at meetings that are open to the public. The TIP is also made available on HRTPO's website. Details of the public involvement process and comments received may be found in Appendix C.

Certification

A joint review of the HRTPO's planning process is conducted each year with FDOT. The currently adopted certification review was completed on March 14, 2024. The purpose of this review is to evaluate the effectiveness of the planning process and to determine its compliance with applicable federal and state requirements. The referenced parties jointly certify, pursuant to Code of Federal Regulations (CFR) Section 450.334, "Metropolitan Transportation Planning Process: Certification," that the metropolitan transportation planning process in the Sebring - Avon Park Urbanized Areas is addressing the major issues facing the area and is being conducted in accordance with all applicable requirements.

Congestion Management Process

Maintenance of a Congestion Management Process (CMP) is a requirement for all TPOs under Florida Statute 339.175 (6)(c)1 and for TPOs in Transportation Management Areas (TMAs) under federal law. Consistent with the guidance from the Final Rule on the CMP, the intent of the CMP process is to “address congestion management through a process that provides for safe and effective integrated management and operation of the multimodal transportation system.”

A vibrant congestion management process can serve a valuable role in addressing the region’s transportation needs in light of the following:

- Funding levels limit the number of new large-scale projects which can be planned and constructed
- Transportation safety is becoming an increasingly important planning consideration

Although the Heartland Regional Transportation Planning Organization (HRTPO) is not in a TMA, which is defined as an urbanized area with a population over 200,000, the region must develop and implement a congestion management process to provide the information needed to make informed decisions regarding the proper allocation of transportation resources” as required by Florida law. The HRTPO CMP was adopted by the Board on June 15, 2022, and incorporated into the 2045 Long Range Transportation Plan.

Transportation Disadvantaged

As of July 1, 2018, the HRTPO is the Designated Official Planning Agency for the door-to-door paratransit service through the Transportation Disadvantaged (TD) program, throughout the six-counties of the Heartland Region.

- Glades and Hendry Counties - The Community Transportation Coordinator (CTC) for this service area is Hendry County.
- DeSoto, Hardee, Highlands, and Okeechobee Counties - The CTC for this service area is MTM Transit, a private for-profit provider.

FY 2024-25 Transportation Disadvantaged Planning, Trip, and Equipment Grant Allocations			
County	Planning Grant Allocation	Trip and Equipment Grant Allocations	
		FY 2024-25 Allocation	Local Match (10%)
DeSoto County	\$22,886	\$140,295	\$15,588
Glades County	\$22,382	\$127,161	\$14,129
Hardee County	\$22,687	\$139,074	\$15,452
Hendry County	\$23,015	\$241,862	\$26,873
Highlands County	\$24,439	\$399,902	\$44,433
Okeechobee County	\$23,014	\$142,448	\$15,827

Performance Management

Performance management is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures and targets are the benchmarks against which progress is assessed using available data.

The FDOT and the HRTPO are required to establish targets for the performance measures that align with the national goals and identified below. The HRTPO has adopted to support the FDOT in their targets on all performance measures. These measures and targets inform the goals of this plan, the project evaluation criteria used by the HRTPO, project priorities and the FDOT Work Program and the HRTPO's Transportation Improvement Program.

This Tip Includes:

- \$31,763,945 in Safety Projects
- \$122,443,705 in System Performance Projects
- \$677,069,970 in Bridge and Pavement Projects
- \$32,075,766 in Transit Projects

Highway Safety Measures

Safety is the first national goal identified in the FAST Act. In March 2016, the Highway Safety Improvement Program (HSIP) and Safety Performance Management Measures Rule (Safety PM Rule) was finalized and published in the Federal Register. The rule requires MPOs to establish targets for the following safety-related performance measures and report progress to the state DOT:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

On August 31, 2023, FDOT established statewide safety performance targets for calendar year 2024. On December 6, 2023 the HRTPO agreed to support FDOT's statewide safety performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The Safety Performance Measures table presents the statewide and TPO safety targets.

Safety Performance Measures	HRTPO Regional Baseline Performance (Five-Year Rolling Average)		HRTPO and Florida 2023 Performance Targets
	2017-21	2018-22	
Number of Fatalities	90	94	0
Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT)	2.841	2.94	0
Number of Serious Injuries	415	358	0
Rate of Serious Injuries per 100 million VMT	13.102	11.22	0
Number of Non-motorized Fatalities and Serious Injuries	39	36	0

After FDOT set its Safety Performance Measures targets in 2016, both FDOT and the HRTPO established 2017 Baseline Safety Performance Measures. To evaluate baseline Safety Performance Measures, the most recent five-year rolling average (2018-2022) of crash data and VMT are identified in the table above.

Pavement and Bridge Condition Measures

On December 16, 2022, FDOT established statewide performance targets for the pavement and bridge measures. On March 15, 2023, the HRTPO agreed to support FDOT's statewide pavement and bridge performance targets, thus agreeing to plan and program projects in the TIP that will, once implemented, make progress toward achieving the statewide targets.

Pavement and Bridge Condition Measures	2-year Statewide Target (2023-2025)	4-year Statewide Target (2021 - 2025)	HRTPO Region Current Conditions
Non-Interstate National Highway System (NHS) Pavement Measures			
Percent in good condition	40%	40%	43.2%
Percent in poor condition	5%	5%	0%
National Highway System (NHS) Bridge Deck Area Measures			
Percent of deck area in good condition	50%	50%	49.8%
Percent of deck area in poor condition	10%	10%	0.0%

System Performance, Freight, and Congestion Program Measures

On December 16, 2022, FDOT established statewide performance targets for the system performance measures. On March 15, 2023, the HRTPO agreed to support FDOT's statewide system performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

System Performance and Freight Targets	2-year Statewide Target (2023 - 2025)	4-year Statewide Target (2021 - 2025)	HRTPO Region Current Conditions
Percent of person-miles on the Interstate system that are reliable	75%	70%	N/A
Percent of person-miles on the non-Interstate National Highway System that are reliable	50%	50%	99%
Truck travel time reliability	1.75	2.00	N/A

Transit Asset Management Measures

All transit agencies within the Heartland region are part of the Group TAM Plan developed by FDOT for Tier II providers in Florida and coordinates with FDOT on reporting of group targets to NTD. On November 28, 2018, the HRTPO agreed to support the transit asset targets identified in the FDOT Group Transit Asset Management Plan, thus agreeing to plan and program projects in the LRTP that will, once implemented, make progress toward achieving the transit targets.

Note: The Federal Transit Administration (FTA) established transit safety performance management requirements in the Public Transportation Agency Safety Plan (PTASP) final rule, which was published on July 19, 2018. There are not any transit systems in the HRTPO planning area that are required to adopt a PTASP.

Asset Category - Performance Measure	Asset Class	FY 2021 Asset Conditions	FY 2022 Performance	FY2023 Target
Revenue Vehicles				
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Automobile	0%	0%	0%
	Bus	21.54%	16.42%	16.0%
	Cutaway Bus	9.81%	7.19%	7.0%
	School Bus	100.0%	100.0%	100.0%
	Mini-Van	19.59%	30.85%	30.0%
	SUV	20%	9.09%	9.0%
	Van	40.58%	39.68%	39.0%
Equipment				
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	75%	100%	100.0%
	Trucks and other Rubber Tire Vehicles	6.25%	6.25%	6.0%
Facilities				
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/Parking Facilities	0%	0%	0%
	Administration/Maintenance Facilities	6.67%	6.67%	6.0%

FY 2028/2029 Transportation Project Priorities

Project Selection

Each year the HRTPO is responsible for developing a list of Priority Transportation Projects and submitting the list to the Florida Department of Transportation (FDOT) for consideration during development of the Five-Year Work Program for DeSoto, Glades, Hardee, Hendry, Highlands, and Okeechobee Counties. Member governments of the HRTPO are requested to submit Transportation Project Applications and Priorities for Fiscal Year 2028/2029 to the HRTPO for transmittal to the Florida Department of Transportation (FDOT) for consideration of programming and funding by FDOT. The project applications are then scored based on criteria—found in Appendix A, developed by the Technical Advisory Committee and Citizens Advisory Committee, and adopted by the HRTPO Board—and ranked in order of priority. This process is conducted in accordance with federal requirements in the TPO planning process, and support FDOT’s Safety Target of zero deaths.

Consistent with federal requirements in 23 CFR 450.322(c) and Title 23, Section 134 USC, and other applicable federal and state requirements, the projects selected for the HRTPO TIP were based on a “snapshot” of the FDOT District Five-Year Work Program for Fiscal Years 2024/25 – 2028/29 dated April 8, 2024. The TIP was developed in cooperation with the state, local governments, and other transportation partners in the region including the Florida Department of Transportation, the counties of DeSoto, Glades, Hardee, Hendry, Highlands and Okeechobee including municipalities.

Project Priority Statement

A list of priority projects is presented to the TPO Board for adoption and submitted to FDOT for use in developing the new fifth year of the Five- Year Work Program. All priority projects are consistent with the TPO’s adopted Long Range Transportation Plan. Adopted June 21, 2023 by the HRTPO Board, the Project Priorities for Fiscal Years 2024/25 to 2028/29 were submitted to FDOT for consideration in the FDOT Tentative Work Program. As a policy of the HRTPO, total project cost will be used as additional criteria to prioritize projects that have the same ranking. Lower cost projects will be given higher priority and higher cost projects will be given lower priority.

Projects that bring more CAPACITY						Project Development Status			
Rank	Jurisdiction	Facility	Description	From	To	Step 1	Step 2	Step 3	Step 4

Summary of Florida Department of Transportation FY 24/25-28/29 Funding Codes

ACBR	ADVANCE CONSTRUCTION (BRT)
ACBZ	ADVANCE CONSTRUCTION (BRTZ)
ACER	ADVANCE CONSTRUCTION (ER)
ACNP	ADVANCE CONSTRUCTION NHPP
ACNR	AC NAT HWY PERFORM RESURFACING
ACPR	AC - PROTECT GRANT PGM
ACSA	ADVANCE CONSTRUCTION (SA)
ACSL	ADVANCE CONSTRUCTION (SL)
ACSM	STBG AREA POP. W/ 5K TO 49,999
ACSN	ADVANCE CONSTRUCTION (SN)
ACSS	ADVANCE CONSTRUCTION (SS,HSP)
BNIR	INTRASTATE R/W & BRIDGE BONDS
BRRP	STATE BRIDGE REPAIR & REHAB
CARB	CARBON REDUCTION GRANT PGM
CARL	CARB FOR URB. LESS THAN 200K
CARM	CARB FOR SM. URB. 5K - 49,999
CARN	CARB FOR RURAL AREAS <5K
CIGP	COUNTY INCENTIVE GRANT PROGRAM
D	UNRESTRICTED STATE PRIMARY
DDR	DISTRICT DEDICATED REVENUE
DEM	ENVIRONMENTAL MITIGATION
DI	ST. - S/W INTER/INTRASTATE HWY
DIH	STATE IN-HOUSE PRODUCT SUPPORT
DIS	STRATEGIC INTERMODAL SYSTEM
DITS	STATEWIDE ITS - STATE 100%.
DPTO	STATE - PTO
DS	STATE PRIMARY HIGHWAYS & PTO
DU	STATE PRIMARY/FEDERAL REIMB
FAA	FEDERAL AVIATION ADMIN
GFBR	GEN FUND BRIDGE REPAIR/REPLACE
GFBZ	GENERAL FUND BRIDGE OFF-SYSTEM

GFEV	GEN. FUND EVEHICLE CHARG. PGM
GMR	GROWTH MANAGEMENT FOR SIS
GRSC	GROWTH MANAGEMENT FOR SCOP
HSP	SAFETY (HIWAY SAFETY PROGRAM)
LF	LOCAL FUNDS
LFD	"LF" FOR STTF UTILITY WORK
NHBR	NATIONAL HIGHWAYS BRIDGES
PL	METRO PLAN (85% FA; 15% OTHER)
REPE	REPURPOSED FEDERAL EARMARKS
RHH	RAIL HIGHWAY X-INGS - HAZARD
SA	STP, ANY AREA
SCED	2012 SB1998-SMALL CO OUTREACH
SCOP	SMALL COUNTY OUTREACH PROGRAM
SCRA	SMALL COUNTY RESURFACING
SCRC	SCOP FOR RURAL COMMUNITIES
SCWR	2015 SB2514A-SMALL CO OUTREACH
SL	STP, AREAS <= 200K
SM	STBG AREA POP. W/ 5K TO 49,999
SN	STP, MANDATORY NON-URBAN <=5K
SR2T	SAFE ROUTES - TRANSFER
STED	2012 SB1998-STRATEGIC ECON COR
TALL	TRANSPORTATION ALTS- <200K
TALM	TAP AREA POP. 5K TO 50,000
TALN	TRANSPORTATION ALTS- < 5K
TALT	TRANSPORTATION ALTS- ANY AREA
TRIP	TRANS REGIONAL INCENTIVE PROGM
TRWR	2015 SB2514A-TRAN REG INCT PRG

Overview of Funded Phases of Multi-County Corridors

In Fiscal Years 2024/25 - 2028/29

SR 29 | Glades and Hendry Counties

Project Description	County	Type of Work Description	Phase Group	Year
FROM HENDRY COUNTY LINE TO N OF SR 78	GLADES	RESURFACING	DESIGN	2025
FROM SR 78 TO CR 74	GLADES	NEW BRIDGE CONSTRUCTION	DESIGN & CONSTRUCTION	2025 & 2029
BYPASS STUDY FROM CR 832 TO WHIDDEN RD	HENDRY	STUDY	DEVELOPMENT STUDY	2029
FROM CR 80A (COWBOY WAY) TO CR 731 (WHIDDEN RD)	HENDRY	ADD LANES & RECONSTRUCT	RIGHT OF WAY	2025
FROM OKLAHOMA AVE TO PARK AVE	HENDRY	DRAINAGE IMPROVEMENTS	CONSTRUCTION	2025-26
FROM S OF C ROAD TO CR 80A (COWBOY WAY)	HENDRY	RESURFACING	CONSTRUCTION	2026

SR 64 | Hardee and Highlands Counties

Project Description	County	Type of Work Description	Phase Group	Year
FROM E OF S BARTOW RD TO W OF SR 636	HARDEE	RESURFACING	CONSTRUCTION	2027
FROM PEAR ST TO S BARLOW RD	HARDEE	RESURFACING	CONSTRUCTION	2025
FROM W OF MORGAN GRICE RD TO HIGHLANDS COUNTY LINE	HARDEE	RESURFACING	DESIGN	2026
FROM HARDEE COUNTY LINE TO SELF AVE	HIGHLANDS	RESURFACING	CONSTRUCTION	2026-27

SR 66 | Hardee and Highlands Counties

Project Description	County	Type of Work Description	Phase Group	Year
FROM W OF SWEETWATER RD TO HIGHLANDS CO LINE	HARDEE	RESURFACING	CONSTRUCTION	2025
FROM HARDEE COUNTY LINE TO SPRING VALLEY LANE	HIGHLANDS	NEW BRIDGE CONSTRUCTION	DESIGN	2026

SR 70 | DeSoto and Highlands Counties

Project Description	County	Type of Work Description	Phase Group	Year
CULVERT PROJECT DADE AVE TO 10TH AVE	DESOTO	CONSTRUCT CULVERT	RIGHT OF WAY	2025
FROM E OF SR 31 TO CR 760	DESOTO	STUDY	DEVELOPMENT STUDY	2025
FROM DESOTO COUNTY LINE TO W OF JEFFERSON AVE	HIGHLANDS	RESURFACING	DESIGN	2026
FROM JEFFERSON AVE TO US 27	HIGHLANDS	ADD LANES & RECONSTRUCT	DESIGN	2025
FROM US 27 TO CR 29	HIGHLANDS	ADD LANES & RECONSTRUCT	DESIGN	2027

SR 78 | Glades and Okeechobee Counties

Project Description	County	Type of Work Description	Phase Group	Year
FROM N OF HERBERT HOOVER DIKE TO CR 721	GLADES	RESURFACING	CONSTRUCTION	2025
FROM E OF SR29 TO W OF PEEPLES RANCH RD	GLADES	RESURFACING	DESIGN	2026
FROM BRIDGE #910094 TO US 98	OKEECHOBEE	RESURFACING	CONSTRUCTION	2025

US 17 | DeSoto and Hardee Counties

Project Description	County	Type of Work Description	Phase Group	Year
FROM SW FLANDERS ST TO SW FLETCHER ST	DESOTO	DRAINAGE IMPROVEMENTS	CONSTRUCTION	2027
FROM N OF SR 64 TO BELL ST	HARDEE	RESURFACING	CONSTRUCTION	2027
FROM S OF HEARTLAND WAY TO COUNTY LINE RD	HARDEE	RESURFACING	CONSTRUCTION	2027
AT CHARLIE CREEK FROM BROOKSIDE BLUFF TO BEN HILL GRIFFIN RD	HARDEE	DRAINAGE IMPROVEMENTS	RIGHT OF WAY & CONSTRUCTION	2026 & 2027

US 27 | Glades, Hendry, and Highland Counties

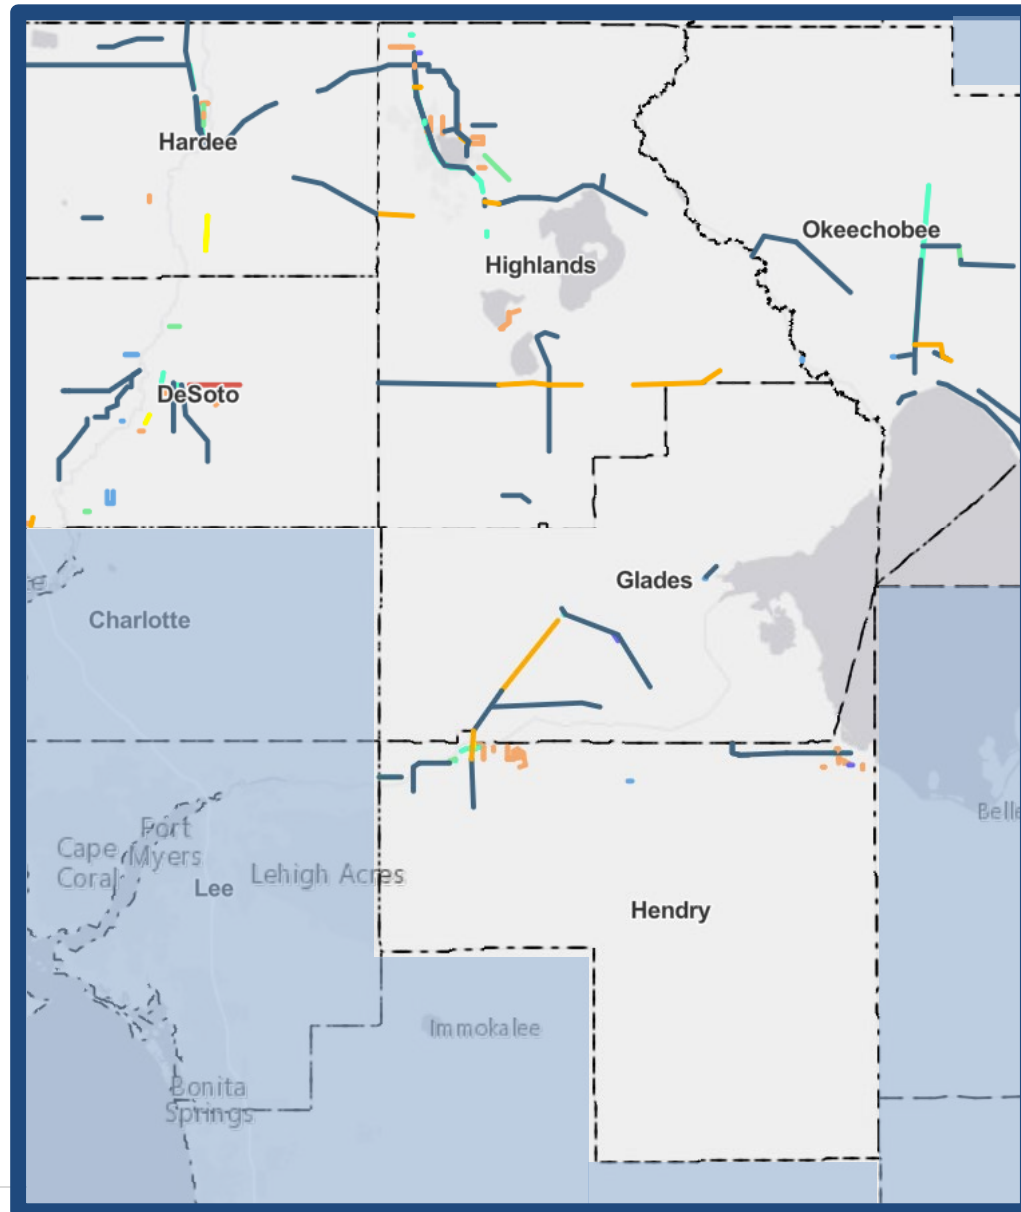

Project Description	County	Type of Work Description	Phase Group	Year
FROM S. OF WAYMAN RD TO N. OF FISH EATING CREEK	GLADES	RESURFACING	CONSTRUCTION	2027
FROM S OF SCFE CROSSING TO N OF SCFE CROSSING	GLADES	RAIL SAFETY PROJECT	ENVIRONMENTAL	2025
AT FLAGPOLE RD	HENDRY	RESURFACING & RECONSTRUCTION	CONSTRUCTION	2027
FROM STITT RANCH TO FLAGHOLE RD	HENDRY	RESURFACING	CONSTRUCTION	2025
FROM W OF OLYMPIA ST TO W OF STITT RANCH RD	HENDRY	RESURFACING	DESIGN	2026
FROM INDUSTRIAL CANAL TO SAGAMORE	HENDRY	RESURFACING & RECONSTRUCTION	CONSTRUCTION	2026
FROM W OF FLAG HOLE RD TO GLADES COUNTY LINE	HENDRY	RESURFACING	DESIGN & CONSTRUCTION	2025 & 2027
AT VARIOUS LOCATIONS - HIGHLANDS COUNTY	HIGHLANDS	MEDIAN MODIFICATION	DESIGN & CONSTRUCTION	2025 & 2026
FROM N OF PONCE DE LEON BLVD TO N OF LAKE ISIS AVE	HIGHLANDS	RESURFACING	DESIGN & CONSTRUCTION	2025 & 2027
FROM S OF HIGHLANDS AVE TO N OF SANTA MARIA HWY	HIGHLANDS	RESURFACING	DESIGN	2027
FROM S OF HORN RD TO S OF SHORELINE DR	HIGHLANDS	RESURFACING	CONSTRUCTION	2025
FROM SOUTH OF SR 66 TO NORTH OF SR 66	HIGHLANDS	RESURFACING & RECONSTRUCTION	CONSTRUCTION	2027
FROM N OF SANTA MARIA HWY TO N OF PONCE DE LEON BLVD	HIGHLANDS	RESURFACING	DESIGN & CONSTRUCTION	2025 & 2027
AT SEBRING PKWY	HIGHLANDS	INTERSECTION IMPROVEMENT	CONSTRUCTION	2026
AT SR 17 / SR 64	HIGHLANDS	INTERSECTION IMPROVEMENT	DESIGN & CONSTRUCTION	2025 & 2026-27

US 98 | Highlands and Okeechobee Counties

Project Description	County	Type of Work Description	Phase Group	Year
FROM BAY BLOSSOM DR TO E OF FLORAL DR	HIGHLANDS	RESURFACING	CONSTRUCTION	2027
FROM EAST OF US 27 TO BAY BLOSSOM DRIVE	HIGHLANDS	ADD LANES & RECONSTRUCT	RIGHT OF WAY & CONSTRUCTION	2025-26 & 2027
OVER KISSIMMEE RIVER BRIDGE REPLACEMENT BR # 090016	HIGHLANDS	BRIDGE REPLACEMENT	CONSTRUCTION	2027
FROM E OF FLORAL DR TO E OF CR 621 EAST	HIGHLANDS	RESURFACING	CONSTRUCTION	2025
FROM NW 3RD ST TO NE 120TH ST	OKEECHOBEE	RESURFACING	CONSTRUCTION	2025
FROM SE 30TH TERR TO MARTIN COUNTY LINE	OKEECHOBEE	RESURFACING	CONSTRUCTION	2025
FROM SW 23RD ST TO SW 3RD ST	OKEECHOBEE	RESURFACING	CONSTRUCTION	2025
FROM W OF US 98 TO E OF NW 5TH AVE	OKEECHOBEE	RESURFACING	CONSTRUCTION	2026
FROM BRIDGE #090016 TO BRIDGE #910090	OKEECHOBEE	RESURFACING	CONSTRUCTION	2027
FROM BRIDGE #910090 TO N OF NW 80TH AVE	OKEECHOBEE	RESURFACING	CONSTRUCTION	2025
US 98 AT NW 9TH STREET	OKEECHOBEE	ADD RIGHT TURN LANE(S)	DESIGN & CONSTRUCTION	2027 & 2029

Local Projects

A project included in a local government adopted Capital Improvements Program that is on, intersects with, or impacts the Regional Roadway Network may, at the discretion of the local government, be included in the HRTPO Transportation Improvement Program. No local projects were received. No additional locally funded projects were identified as regionally significant or intersects with or impacts the Regional Roadway Network.

Appendix A: Adopted Project Priority Evaluation Criteria

L RTP Goals	Evaluation Criteria for Capacity Projects	Criteria Scoring
Improve Safety	Safety	
	Roadway with no serious injuries/fatal crashes in past 5 years (depending on data availability)	0
	Roadway with 1 or more serious injuries/fatal crashes in past 5 years (depending on data availability)	15
	Emergency Evacuation Routes*	
	Not a designated evacuation route	0
	Is a designated evacuation route	15
Provide Reliable and Efficient Options	Project Status	
	Not programmed for Capital Improvement Program (CIP) or Transportation Improvement Program (TIP)	0
	Preliminary Engineering or Project Development & Environment and/or alignment study phase programmed in TIP	8
	Right-of-Way acquisition and/or construction programmed in TIP	15
	Provide reliable and efficient options	
	No reuse of existing investment	0
	Preserves existing investment	3
	Optimizes reuse of existing investment	5
	Existing Congestion Level	
	0.0 to 0.7 Volume / Capacity ratio (V/C)	0
0.71 to 0.99 V/C	10	
1.0 and above V/C	20	
Create Quality Places	Sociocultural effects/Environmental Justice/Environmental Impact	
	Potential negative impact on environment or environmental justice area	0
	No impact to environment or environmental justice area	3
	Potential positive impact on environmental justice area and no environmental impact	5
Support Economic Development	Regional Freight Corridor**	
	Not on HRTPO Regional Roadway Network or Regional freight corridor	0
	Is on HRTPO Regional Roadway Network	5
	Is a Regional freight corridor	10
	Access to Major Activity or Employment Centers	
	No direct access to activity or employment center	0
Improves access to activity or employment center	5	
	Provides access to a new activity or employment center	10
Connect Land Provide Choices	Multimodal Connectivity	
	No multimodal improvement	0
	Bicycle and/or sidewalk improvement	3
	Access to transit improvement	5

*Evacuation routes are from the Statewide Regional Evacuation Study (SRES)

**Regional freight corridor as designated in the FDOT District One Freight Mobility and Trade Study, October 2015

Adopted: March 16, 2016 Amended: November 1, 2017

The evaluation criteria for non-capacity projects including Transportation Alternatives (TA), Congestion Management (CM), and Regional Transportation Alternatives Program Projects (RTAP), and Transportation Regional Incentive Program Projects (TRIP) was adopted April 27, 2016, and amended September 16, 2020.

L RTP Goals	Evaluation Criteria for Congestion Management Projects	Criteria Scoring
Improve Safety	Safety	
	Road/intersection has experienced 1 or more fatal or serious accidents in previous 5 years	20
Provide Reliable and Efficient Options	Pedestrian Safety	
	Road/intersection has 1 or more car/pedestrian incidents past 5 years	20
	Project Status/Funding Availability	
	Local funding is available to advance or contribute to project	10
	Level of Service (LOS)	
	Segment of road or intersection does not meet FDOT LOS Standards	10
	Truck Factor	
Truck factor on segment of road or intersection managed by FDOT is greater than 10%	10	
Create Quality Places	Non Interstate Reliability	
	Person miles traveled on Non Interstate NHS segment of road managed by FDOT reported as not reliable or below 50% on FDOT scale	20
	Community and/or Environmental Impact	
	Potential negative impact on community or environment	0
	No impact to community or environment	5
	Potential positive impact on community or environment	10

L RTP Goals	Evaluation Criteria for Transportation Alternative Projects	Criteria Scoring
Improve Safety	Safety	
	Adjacent road has 1 or more car/pedestrian incidents past 5 years	15
	School Zone Safety	
	Project is within 1-2 miles from a K-12 school	4
	Project is 1/2 mile to 1 mile from a K-12 school	10
	Project is within 1/2 mile of a K-12 school	16
	Project is within 1/4 mile of a K-12 school	18
	Project is within 1/8 mile of a K-12 school	20
Provide Reliable and Efficient Options	Safety Plan	
	Project is identified in the adopted HRTPO Bicycle and Pedestrian Safety Plan	15
	Project Linkage	
	Isolated improvement	0
	Connects to network	20
	Completes connection/closes gap	25
Additional phase or connects to project in Five-Year Work Program or funded Local Capital Improvement Program	Project Status/Funding Availability	
	Local funding is available to advance or contribute to project	10
	Level of Service (LOS)	
	Segment of road or intersection does not meet FDOT LOS Standards	10
	Truck Factor	
	Truck factor on segment of road or intersection managed by FDOT is greater than 10%	10
	Non Interstate Reliability	
	Person miles traveled on Non Interstate NHS segment of road managed by FDOT reported as not reliable or below 50% on FDOT scale	20
	Community and/or Environmental Impact	
	Potential negative impact on community or environment	0
	No impact to community or environment	5
	Potential positive impact on community or environment	10

Appendix B: Performance Measures

Background

Performance management is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures are quantitative criteria used to evaluate progress. Performance measure targets are the benchmarks against which progress is assessed using available data. The Moving Ahead for Progress in the 21st Century Act (MAP-21) requires state departments of transportation (DOT) and MPOs to conduct performance-based planning by tracking performance measures and establishing data-driven targets to improve those measures. Performance-based planning ensures the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

The Fixing America's Surface Transportation (FAST) Act supplements MAP-21 by establishing timelines for state DOTs and MPOs to comply with the requirements of MAP-21. FDOT and MPOs must coordinate when selecting PM1, PM2, and PM3 performance targets, and public transportation providers must coordinate with states and MPOs in the selection of state and MPO transit asset management and transit safety performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which FDOT, the MPOs, and the providers of public transportation in MPO planning areas will cooperatively develop and share information related to transportation performance management and target setting.

HIGHWAY SAFETY MEASURES (PM1)

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2023, FDOT established statewide safety performance targets for calendar year 2024. Table B.1 presents FDOT's statewide targets.

Table B.1. Statewide and TPO Safety Performance Targets

Statewide Safety Performance Targets	Statewide Target (2023)	HRTPO Target (2023)
Number of fatalities	0	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0	0
Number of serious Injuries	0	0
Rate of serious injures per 100 million vehicle miles traveled (VMT)	0	0
Number of non-motorized fatalities and serious injuries	0	0

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT’s target for zero traffic fatalities and quantified the policy set by Florida’s Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

“The mission of the Department of Transportation shall be to provide a safe statewide transportation system...”

FDOT and Florida’s traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by the FHWA, the death or serious injury of any person is unacceptable. The Florida Transportation Plan (FTP), the state’s long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state’s highest transportation priority. Therefore, FDOT established 0 as the only acceptable target for all five federal safety performance measures.

The HRTPO, along with FDOT and other traffic safety partners, shares a high concern about the upward trending of traffic fatalities, both statewide and nationally. As such, on January 18, 2024, the HRTPO agreed to support FDOT’s statewide safety performance targets for calendar year 2024, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

Safety Trends in the MPO Area

After FDOT set its Safety Performance Measures targets in 2016, both FDOT and the HRTPO established 2017 Baseline Safety Performance Measures. To evaluate baseline Safety Performance Measures, the most recent five-year rolling average (2017-2021) of crash data and VMT are identified in the Table B.2.

Trends Analysis

The HRTPO uses crash data tracking fatalities and serious injuries in the region to analyze past trends and identify regional safety issues. Tracking these measures will help to estimate the effectiveness of future HRTPO transportation investment, as reflected in the TIP. Table B.2 shows the changes in Safety Performance Measures for the HRTPO from 2017 through 2022 in five-year rolling averages.

Table B. 2: Trend Analysis	HRTPO Regional Baseline Performance (Five-Year Rolling Average)		HRTPO and Florida 2023 Performance Targets
	2017-21	2018-22	
Number of Fatalities	90	94	0
Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT)	2.841	2.94	0
Number of Serious Injuries	415	358	0
Rate of Serious Injuries per 100 million VMT	13.102	11.22	0

Florida’s Strategic Highway Safety Plan

Florida’s Strategic Highway Safety Plan (SHSP), published in March 2021, specifically embraces Vision Zero and a new slogan and logo of Target Zero and identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida’s 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida’s transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated “Safe System” approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safe road users, safe vehicles, safe speeds, safe roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida’s safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micromobility, and connected and automated vehicles.

Florida’s Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2023 HSIP Annual Report, FDOT reported 2024 statewide safety performance targets at “0” for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than baseline for at least four of the five measures. If this does not occur FDOT must submit an annual implementation plan with actions it will take to meet targets in the future.

On April 21, 2022, FHWA reported the results of its 2020 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2020 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than baseline. Subsequently, FDOT developed an HSIP Implementation Plan HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. This plan was submitted with the HSIP Annual Report to FWHA on August 31, 2023. Note: FDOT will send updated text once FHWA sends the 2021 safety target assessment.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida’s HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT’s safety programs – the HSIP Implementation Plan also documents how additional FDOT and partner activities may contribute to progress toward zero. Key commitments in the HSIP Implementation Plan include:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state’s traffic safety challenges and identify and implement successful safety solutions. Florida’s transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT’s State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida’s SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT’s HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$156 million in HSIP funds for use during the 2022 state fiscal year from July 1, 2022 through June 30, 2023, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year’s HSIP allocated \$128 million in infrastructure investments on state-maintained roadways and \$27 million in infrastructure investments on local roadways. The remaining \$9 million included supporting activities such as transportation safety planning, preliminary engineering, traffic engineering studies, transportation statistics, and public information or education. A list of HSIP projects can be found in the [HSIP 2023 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding will be distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

Additional FDOT Safety Planning Activities

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project’s purpose and need, and defines several factors related to safety, including crash modification factor and safety performance factor, as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Official (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

Safety Investments in the TIP

The TIP considers potential projects that fall into specific investment priorities established by the HRTPO in the Long Range Transportation Plan (LRTP). The HRTPO has developed criteria to evaluate potential projects submitted by local jurisdictions for both capacity and non-capacity projects shown in Appendix A. The adopted criteria supports specific investment priorities that support all of the TPO's goals, including safety, established in the LRTP and safety accounts for 30%-40% of the selection criteria. The TPO's goal of reducing fatal and serious injury crashes is linked to this investment plan, and the process used in prioritizing the projects is consistent with federal requirements. In order to achieve the reduction established by the safety targets, the TPO has evaluated projects that fall into specific investment categories established by the TPO in the project application, evaluation and ranking process. For the HRTPO, this includes over \$31 million in safety programs such as: sidewalks, roadway lighting, intersection improvements, signage and pavement markings, and railroad and aviation safety projects.

The TIP includes specific investment priorities that support all of the TPO's goals including safety, using a prioritization and project selection process established in the LRTP. The TPO has developed a TIP project selection process that identifies and prioritizes projects aimed at improving transportation safety. The ranking criteria are updated annually and are included in the appendices of the TIP. The current ranking criteria give the most point value to projects with the greatest anticipated fatality reduction. Going forward, the project evaluation and prioritization processes used in the LRTP and the TIP will continue to use a data-driven strategy that considers stakeholder input to evaluate projects that have an anticipated effect of reducing both fatal and injury crashes.

The program of projects identified through this process are anticipated to contribute toward achievement of the safety targets. The safety infrastructure investments are targeted at specific opportunities to improve safety. For example, additional roadway lighting at intersections will improve pedestrian visibility to drivers and sidewalks will give pedestrians a safe way to travel.

These projects fall in the following categories. The HRTPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

- Sidewalk
- Lighting
- Safety projects
- Corridor improvements
- Add turning lanes
- Signing and pavement markings

In addition to the specific safety programs included in the TIP, other programs also consider safety as a key factor. Safety impacts are considered in the evaluation of proposed preservation, capacity, and operations projects, including projects on Florida's Strategic Intermodal System as well as regionally significant facilities identified in the LRTP. All projects in this TIP inherently support progress towards achieving the safety performance targets, through their adherence to the TPOs policies, programs, and standards related to safety.

PAVEMENT & BRIDGE CONDITION MEASURES (PM2)

FHWA's Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition;

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Cracking percent - percentage of pavement surface exhibiting cracking; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Rutting - extent of surface depressions; applicable to asphalt pavements only;
- Faulting - vertical misalignment of pavement joints; applicable to jointed concrete pavements only; and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

For each pavement metric, a threshold is used to establish good, fair, or poor condition. Using these metrics and thresholds, pavement condition is assessed for each 0.1 mile section of the through travel lanes of mainline highways on the Interstate or the non-Interstate NHS. Asphalt pavement is assessed using the IRI, cracking, and rutting metrics, while jointed concrete is assessed using IRI, cracking, and faulting. For these two pavement types, a pavement section is rated good if the ratings for all three metrics are good, and poor if the ratings for two or more metrics are poor.

Continuous concrete pavement is assessed using the IRI and cracking metrics. For this pavement type, a pavement section is rated good if both metrics are rated good, and poor if both metrics are rated poor. If a state collects and reports PSR for any applicable segments, those segments are rated according to the PSR scale. For all three pavement types, sections that are not good or poor are rated fair. The good/poor measures are expressed as a percentage and are determined by summing the total lane-miles of good or poor highway segments and dividing by the total lane-miles of all highway segments on the applicable system. Pavement in good condition suggests that no major investment is needed and should be considered for preservation treatment. Pavement in poor condition suggests major reconstruction investment is needed due to either ride quality or a structural deficiency.

The bridge condition measures refer to the percentage of bridges by deck area on the NHS that are in good condition or poor condition. The measures assess the condition of four bridge components: deck, superstructure, substructure, and culverts. Each component has a metric rating threshold to establish good, fair, or poor condition. Each bridge on the NHS is evaluated using these ratings. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

The bridge measures are expressed as the percent of NHS bridges in good or poor condition. The percent is determined by summing the total deck area of good or poor NHS bridges and dividing by the total deck area of the bridges carrying the NHS. Deck area is computed using structure length and either deck width or approach roadway width.

A bridge in good condition suggests that no major investment is needed. A bridge in poor condition is safe to drive on; however, it is nearing a point where substantial reconstruction or replacement is needed.

Federal rules require state DOTs to establish two-year and four-year targets for the bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2022 exceeds the targets. The two-year and four-year targets represent bridge and pavement condition at the end of calendar year 2025. Table B.3 presents the statewide targets.

Table B.3. Statewide Pavement and Bridge Condition Performance Targets

Pavement and Bridge Condition Measures	2-year Statewide Target (2023 - 2025)	4-year Statewide Target (2021 - 2025)	HRTPO Region Current Conditions
Non-Interstate National Highway System (NHS) Pavement Measures			
Percent in good condition	40%	40%	43.2%
Percent in poor condition	5%	5%	0%
National Highway System (NHS) Bridge Deck Area Measures			
Percent of deck area in good condition	50%	50%	49.8%
Percent of deck area in poor condition	10%	10%	0.0%

For comparative purposes, the baseline (2021) conditions are as follows:

61.3 percent of NHS bridges (by deck area) is in good condition and 0.5 percent is in poor condition.

70.5 percent of the Interstate pavement is in good condition and 0.7 percent is in poor condition;

47.5 percent of the non-Interstate NHS pavement is in good condition and 1.1 percent is in poor condition; and

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors. FDOT is mandated by Florida Statute 334.046 to preserve the state’s bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for pavements and bridges.

In addition, FDOT develops a Transportation Asset Management Plan (TAMP) for all NHS pavements and bridges within the state. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State’s targets for asset condition and performance of the NHS. FDOT’s first TAMP was approved on June 28, 2019. The TAMP has since been updated in 2022 and is waiting final approval from FHWA.

Further, the federal pavement condition measures require a methodology that is different from the methods historically used by FDOT. For bridge condition, the performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT. For pavement condition, the methodology uses different ratings and pavement segment lengths, and FDOT only has one year of data available for non-Interstate NHS pavement using the federal methodology.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida’s bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2023 exceeded the established targets. Based on anticipated funding levels, FDOT believes the previous targets are still appropriate for 2023 and 2025.

In early 2021, FHWA determined that FDOT made significant progress toward the 2019 targets; FHWA’s assessment of progress toward the 2021 targets is anticipated to be released in March 2024.

On May 18, 2018, FDOT established statewide performance targets for the system performance measures. On September 19, 2018, the HRTPO agreed to support FDOT's statewide system performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The TIP devotes a significant amount of resources to projects that will maintain pavement and bridge condition performance. Investments in pavement and bridge condition include pavement replacement and reconstruction, bridge replacement and reconstruction, and new bridge and pavement capacity. The TIP will fund over \$677 million for bridges, resurfacing, and new capacity.

SYSTEM PERFORMANCE, FREIGHT, & CONGESTION MITIGATION & AIR QUALITY IMPROVEMENT PROGRAM MEASURES (PM3)

USDOT's System Performance/Freight/CMAQ Performance Measures Final Rule established measures to assess passenger and freight performance on the Interstate and non-Interstate National Highway System (NHS), and traffic congestion and on-road mobile source emissions in areas that do not meet federal National Ambient Air Quality Standards (NAAQS). The rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

National Highway Performance Program (NHPP)

1. Percent of person-miles on the Interstate system that are reliable, also referred to as Level of Travel Time Reliability (LOTTR);
2. Percent of person-miles on the non-Interstate NHS that are reliable (LOTTR);

National Highway Freight Program (NHFP)

3. Truck Travel Time Reliability index (TTTR);

Congestion Mitigation and Air Quality Improvement Program (CMAQ)

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NO_x, VOC, CO, PM₁₀, and PM_{2.5}) for CMAQ funded projects.

Because all areas in Florida meet current NAAQS, the last three measures pertaining to the CMAQ Program do not currently apply in Florida. A description of the applicable measures follows.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over of all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

System Performance and Freight Targets

Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT

established statewide performance targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets. The two and four-year targets represent performance at the end of calendar year 2025. Table B.4 presents the statewide targets.

Table B.4. Statewide System Performance and Freight Targets

System Performance and Freight Targets	2-year Statewide Target (2023 - 2025)	4-year Statewide Target (2021 - 2025)	HRTPO Region Current Conditions
Percent of person-miles on the Interstate system that are reliable	75%	70%	N/A
Percent of person-miles on the non-Interstate National Highway System that are reliable	50%	50%	99%
Truck travel time reliability	1.75	2.00	N/A

For comparative purposes, baseline (2021) statewide conditions are as follows:

- 87.5 percent of person-miles traveled on the Interstate are reliable;
- 92.9 percent of person-miles traveled on the non-Interstate are reliable; and
- 1.38 truck travel time reliability index.

In establishing these targets, FDOT reviewed external and internal factors that may affect reliability, analyzed travel time data from the National Performance Management Research Dataset (NPMRDS), and developed a sensitivity analysis indicating the level of risk for road segments to become unreliable.

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Performance for all three measures improved from 2017 to 2021, with some disruption in the trend during the global pandemic in 2020. Actual performance in 2019 was better than the 2019 targets, and in early 2021 FHWA determined that FDOT made significant progress toward the 2019 targets. FHWA's assessment of progress toward the 2021 targets is anticipated to be released in March 2024.

The methodologies for the PM3 measures are still relatively new, and the travel time data source has changed since the measures were first introduced. As a result, FDOT only has three years (2017-2019) of pre-pandemic travel reliability trend data as a basis for future forecasts. Based on the current data, Florida's performance continues to exceed the previous targets. Given the uncertainty in future travel behavior, FDOT believes the previous targets are still appropriate for 2023 and 2025.

System performance and freight are addressed through several statewide initiatives:

- Florida's Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The SIS Policy Plan was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investments needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).
- In addition, FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT's State Freight Plan.
- FDOT also developed and refined a methodology to identify freight bottlenecks on Florida's SIS on an annual basis using vehicle probe data and travel time reliability measures. Identification of bottlenecks and estimation of their delay impact aids FDOT in focusing on relief efforts and ranking them by priority. In turn, this information is incorporated into FDOT's SIT to help identify the most important SIS capacity projects to relieve congestion.

- The focus of the HRTPO’s investments that address system performance and freight including corridor improvements, intersection improvements (on NHS roads), and investments in transit, bicycle, or pedestrian systems that promote mode shift. The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. Investments include intersection improvements. The TIP will fund \$122 million for projects that will improve system performance. The projects included in the TIP are consistent with FDOT’s Five-Year Work Program, and therefore to FDOT’s approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the TPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the TPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

TRANSIT ASSET MANAGEMENT MEASURES

- FTA’s Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term “state of good repair,” require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table B.5 identifies the TAM performance measures

Table B.5 FTA TAM Performance Measures

Asset Category - Performance Measure	Asset Class	FY 2021 Asset Conditions	FY 2022 Performance	FY2023 Target
Revenue Vehicles				
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Automobile	0%	0%	0%
	Bus	21.54%	16.42%	16.0%
	Cutaway Bus	9.81%	7.19%	7.0%
	School Bus	100.0%	100.0%	100.0%
	Mini-Van	19.59%	30.85%	30.0%
	SUV	20%	9.09%	9.0%
	Van	40.58%	39.68%	39.0%
Equipment				
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	75%	100%	100.0%
	Trucks and other Rubber Tire Vehicles	6.25%	6.25%	6.0%
Facilities				
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/Parking Facilities	0%	0%	0%
	Administration/Maintenance Facilities	6.67%	6.67%	6.0%

Asset Category Performance Measure

1. Equipment Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
2. Rolling Stock Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
3. Infrastructure Percentage of track segments with performance restrictions
4. Facilities Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider's operating environment. ULB considers a provider's unique operating environment such as geography, service frequency, etc.

Public transportation providers are required to establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider's projects and services are programmed in the MPO's TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a Group Plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

FDOT Group TAM Plan Participants

A total of 18 transit providers participated in the FDOT Group TAM Plan and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (Table 6.2). These are FDOT's Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in September 2022 and covers fiscal years 2022-2023 through 2025-2026. Group TAM Plan targets for fiscal year 2022 were submitted to NTD in July 2022; updated targets for fiscal year 2022 are under development.

The HRTPO has the following Tier II providers operating in the region:

- Central Florida Regional Planning Council
- Hendry County

The HRTPO is part of the Group TAM Plan for Fiscal Years 2018/2019-2021/2022 developed by FDOT for Tier II providers in Florida. The FY 2020 asset conditions and FY 2021 targets for the Tier II providers are shown in Table 6.4. *Note: FDOT will provide an update once FY 2021 conditions and FY 2022 targets are available.*

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The focus of HRTPO's investments that address transit state of good repair include [list projects, programs, and strategies funded in the TIP that address transit equipment, vehicles, infrastructure, or facilities in the MPO area, such as those in the following categories; list project selection criteria for the TIP consistent with the transit asset performance measures. These may include:

- Bus and other vehicle purchases and replacements
- Equipment purchases and replacements
- Retrofits
- Repair, rehabilitation, and replacement of transit facilities
- Repair, rehabilitation, and replacement of transit infrastructure]

Transit asset condition and state of good repair is a consideration in the methodology HRTPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area.

As part of Group TAM Plan developed by FDOT for Tier II providers in Florida and coordinates with FDOT on reporting of group targets to NTD. The FY 2021 asset conditions and 2022 targets for the Tier II providers are shown above. The statewide group TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities over the next year. The targets reflect the most recent data available on the number, age, and condition of transit assets, and expectations and capital investment plans for improving these assets during the next fiscal year, using the asset inventory and investment prioritization process incorporated in the Group TAM Plan. Key findings of the Group TAM Plan include the following:

Investment decisions for asset replacement in the FDOT Group TAM Plan inventory are made with the goal to maintain or improve the percentage of vehicles, equipment, and facilities in an adequate or better condition. FDOT and its subrecipient transit providers will monitor all assets for unsafe conditions. Identifying an opportunity to improve the safety of an asset, however, does not necessarily indicate an unsafe condition. If an unacceptable safety risk associated with an asset is identified, that asset will be ranked with higher investment priority to the extent practicable. The subrecipients prioritize the rehabilitation and replacement of vehicles that provide transit service over non-revenue vehicles and facilities.

As required by FTA, FDOT will update this TAM Plan at least once every four years. FDOT will update the statewide performance targets for the participating agencies on an annual basis and will notify the participating transit agencies and the TPOs in which they operate when the targets are updated. This TIP was developed and is managed in cooperation with FDOT and it reflects the investment priorities established in the 2045 LRTP. The HRTPO's investments to address the state of good repair focus on the replacement of vehicle/bus stock that have reached or exceeded its useful life.

Note: The Federal Transit Administration (FTA) established transit safety performance management requirements in the Public Transportation Agency Safety Plan (PTASP) final rule, which was published on July 19, 2018. There are not any transit systems in the HRTPO planning area that are required to adopt a PTASP.

Appendix C: **Public Involvement and Comments Received**

Public Comment Period Open: Draft Transportation Improvement Program (TIP) for HRTPO Draft Transportation Improvement Program for Fiscal Years 2024/25 – 2028/29 Comment Period: May 10 to June 10, 2024

The Heartland Regional Transportation Organization presented the draft Transportation Improvement Program to the Heartland Region on May 10, 2024 for a 30-day public comment period. The draft plan was made available on www.heartlandregionaltpo.org and distributed during the comment period.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, income, or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Marybeth Soderstrom, HRTPO Title VI Liaison, 863-534-7130, extension 134 (voice), or via Florida Relay Service 711, or by email: msoderstrom@cfrpc.org.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

Editorial: The MPO may address comments regarding grammatical, spelling, and other related errors, but this would not affect the document's approval.

Enhancement: Comments may be addressed by the MPO but would not affect the approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: The comment **MUST** be addressed to meet the minimum state and federal requirements for approval. The reviewer must clearly identify the applicable state or federal statutes, regulations, policies, guidance, or procedures to which the document does not conform.

If a question is categorized, a comment must accompany it. If a question is answered with "no," a comment must accompany it.

MPO: Fiscal Years included:

Does the TIP include all Federal discretionary grants that fund capital projects under Title 23 or Title 49, USC, per the Infrastructure Investment and Jobs Act (IIJA)? Federal discretionary grants that fund capital projects must be in the TIP before executing a grant agreement with USDOT. For more information, see this [link](#).
